

Now it is possible to raise every livable chick

You can prevent the usual heavy mortality during the critical first three weeks—can raise every livable chick, avoid disease, secure rapid growth and sturdy constitution by feeding

Pratts Buttermilk Baby Chick Food

Real baby food for baby chicks. 75 per cent. predigested. It contains bone and muscle builders, grows vigorous, active chicks. Intestinal trouble, leg weakness and other disease foes of chick life unknown. Why run the risk of losing chicks when at a cost of a cent a chick for three weeks, you can raise every livable chick. Extra chicks saved pay for all food.

Vote for JOE GRAHAM for SHERIFF
No. 50 on the Ballot

Joe Graham is not the Machine candidate.
Joe Graham is not running on his military record.
Joe Graham is running on his record as a public official.
"I promise you the SERVICE you are paying for."

WHAT is his record of SERVICE rendered to Lake County?
WHAT was Joe Graham's attitude in the administration of the Coroner's office toward the corporations of Lake County?
When a death occurred in any of the big plants, requiring the services of the Coroner, Joe Graham laid the cards face up on the table; employer and employee alike received plain, simple justice.
WHAT was the attitude of Joe Graham towards the working man?
Examine his record as an expert witness before the Industrial Board of this State and you will find that he has always given testimony favorable to the injured man.
WHAT was the attitude of Joe Graham towards the families of men who met their death in a vicious or accidental manner?
While Coroner he always protected the interests of the widows and children of men killed by accident, and every insurance company of Lake County can testify that through the careful wording of his verdicts no child or widow was ever cheated out of their insurance.
WHAT was the attitude of Joe Graham toward the railroads?
He had safety apparatus put on four of the most dangerous crossings in Lake County, thereby protecting the lives of all automobilists.
WHAT was the attitude of Joe Graham towards the lawless element in Lake County?
He waged unceasing war against gun-toters and illegal practitioners.
AND he established the office of County Coroner on a basis of efficiency and business-like administration. Complete records of every case were kept in the Coroner's office, and those records were available to the public at any time.

PROTEST AT HOUSING SITUATION

A heated discussion is expected at the East Chicago Chamber of Commerce meeting tomorrow noon when representatives of the industries and business houses and members of the organization will take up the question of the housing and building situation in this region.

At a meeting in Gary a few weeks ago of representatives of the various commercial organizations it was asked that a letter be sent to the United States Department of Commerce stating that prices of labor and material in the Calumet region are exorbitant and that much of the trouble is caused by the building at any cost by the industries of the region in order that they may escape the excess profits tax.

A letter embodying these facts has been drawn up and is ready for transmission but is meeting objection from some of the industries and other interests. The meeting tomorrow will be devoted to a thorough discussion of the question and the body will determine whether or not the letter is to be sent. Portions of the letter which are meet-

BLOUSE IS CENTER OF FASHION STAGE

The garment which holds the center of the fashion stage today is the separate blouse. There is such a variety of styles, colors and materials that every woman can be suited. The overblouse or costume blouse is attracting more attention than any of the others just now. Here is one for very informal wear at home. It is a loose smock-like affair artistically trimmed with satin flowers and embroidery.

ing with opposition are those that state: "It seems to many of our men, that the prevailing high prices asked for material are in the main unwarranted and unjustifiable notwithstanding the increased prices on raw material and labor; in other words, that prices on building material have gone up out of all proportion to increased cost of production."

Not only must we pay exorbitant prices for flooring, trim, etc., but conditions here, as in doubtless all other

manufacturing districts, make it impossible to secure labor at outside market prices.

"Could the government start an investigation of our situation in this great Calumet industrial district, there would doubtless result some startling developments."
